Dear Sir or Madam:

I am strongly opposed to the Draft Memorandum proposed by the FDA.. The definition of "inordinate amount" would restrict our right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines by compounding pharmacies.

I have benefited greatly from such medications as prescribed by my physician I cannot see who would benefit from this restriction other than the purveyors of mass marketed pharmaceuticals. It is certainly not in the interest of patients with unique needs and physicians working to help them.

Sincerely,

A handwritten signature in cursive script, appearing to read "Mary Bradstock".
